

Construction

We represent general contractors, subcontractors, design professionals and material suppliers who are engaged in the construction of industrial, commercial, residential and other building projects in the public and private sectors, wherever their often complex problems may arise: whether by preparing and negotiating contracts or by arbitrating, mediating, and litigating construction disputes.

From bid placement to project execution and closing, our attorneys have advised clients through all stages of construction projects, no matter the size, including the largest public construction project in Louisiana history. The quality of our work in construction law has been recognized by *Chambers USA: America's Leading Lawyers for Business*, Construction Lawyers Society of America (by invitation), and *Louisiana Super Lawyers*.

We stay abreast of industry trends, including technological advances and material improvements. Our attorneys also monitor changes to federal, state and local legislation that impact the industry and our clients' businesses, including developments in labor and employment law and safety regulations.

We advise clients on matters involving:

- Contractual and bid disputes
- Scheduling issues
- Performance and breach of contract claims
- Contract interpretation
- Delay claims
- Design and construction defects
- Private Works Act
- Public Works Act
- Insurance claims.

Our attorneys routinely represent clients in the construction of:

- Commercial developments
- Condominiums and residential developments

- Schools
- Hospitals
- Historic properties
- Convention and events centers
